Instructions for accessing MySQL on the computers in the Carleton computer lab

The computers are equipped. The icons for MAMP and MySQL Workbench are on the dock. MAMP is the gear icon and MySQL Workbench is the dolphin icon.

Once you start MAMP, navigate to the Manage Servers tab. Click on the MySQL server and click the start button. The dot will turn green when the sever is started. It will take a couple of minutes for the server to start up.

	Bi	tnami MAMP Stack 5	5.5.25-0		_
	Welcome	Manage Servers	Application log		
Server		Status			
MySQL Database	Run	ning		Start	
Apache Web Serve	r Sto	ppea		Stop	
				Restart	and the second second
				Configure	
	Start All	Stop All	Restart All		

Once the MySQL server is started, launch MySQL Workbench. Click on the 3306 instance and enter the password rootroot.

MySQL Workbench will open to the query screen.
