## Your Health System

### Explore your health system

Explore indicators to better understand your health system and the health of Canadians. Search by hospital, long-term care organization, city, health region, province or territory.

Start by entering a hospital, long-term care organization, city, health region, province or territory.

Please enter 2 or more characters...

Select  Indicator Results or  Overall Results

- 4.
5. Enter a province – say, Ontario – into the search box, and then select the “Indicator Results” tab
6. Scroll to the menu of choices at the bottom of the page, and select “Hospitalizations Caused Entirely By Alcohol” in the

“Hospital Status” section on the far right-hand side.

The screenshot displays a dashboard with four main columns of indicators. The 'Health Status' column is highlighted with a red box. Within this column, the indicator 'Hospitalizations Entirely Caused by Alcohol' is also highlighted with a red box. Other indicators include 'Access', 'Appropriateness and Effectiveness', 'Safety', 'Person-Centredness', 'Efficiency', and 'Social Determinants'.

Access	Appropriateness and Effectiveness	Safety	Health Status
<a href="#">Emergency Department Wait Time for Physician Initial Assessment (90% Spent Less in Hours)</a>	<a href="#">All Patients Readmitted to Hospital</a>	<a href="#">In-Hospital Sepsis</a>	<a href="#">Life Expectancy at Birth</a>
<a href="#">Total Time Spent in Emergency Department for Admitted Patients (90% Spent Less in Hours)</a>	<a href="#">Medical Patients Readmitted to Hospital</a>	<a href="#">Obstetric Trauma (With Instrument)</a>	<a href="#">Life Expectancy at Age 65</a>
<a href="#">Has a Regular Health Care Provider</a>	<a href="#">Surgical Patients Readmitted to Hospital</a>	<a href="#">Potentially Inappropriate Medication Prescribed to Seniors</a>	<a href="#">Perceived Health</a>
<a href="#">Hip Fracture Surgery Within 48 Hours</a>	<a href="#">Obstetric Patients Readmitted to Hospital</a>	<a href="#">Falls in the Last 30 Days in Long-Term Care</a>	<a href="#">Avoidable Deaths</a>
	<a href="#">Patients 19 and Younger Readmitted to Hospital</a>	<a href="#">Worsened Pressure Ulcer in Long-Term Care</a>	<a href="#">Avoidable Deaths From Preventable Causes</a>
	<a href="#">Ambulatory Care Sensitive Conditions</a>		<a href="#">Avoidable Deaths From Treatable Causes</a>
	<a href="#">High Users of Hospital Beds</a>		<a href="#">Hospitalized Heart Attacks</a>
	<a href="#">Hospital Deaths (HSMR)</a>		<a href="#">Hospitalized Strokes</a>
